

SANTIAGO SALAZAR PAVAJEAU

US | (407) 692 - 5785 | santiago.s.pavaieau@gmail.com

[LinkedIn](#) | [GitHub](#) | [Blog](#)

Software engineer with a background in business and science with a passion for collaboration and innovative technical projects. Experienced in project management, technological solutions, and teamwork. Looking to partner with a company with an open culture that values collaboration, learning, creative advancement, and cutting edge technology development.

TECHNICAL SKILLS

Languages: Javascript (ES6), Ruby, SQL, HTML, CSS, TypeScript, Java, Python

Frameworks/Systems/Libraries: React, Redux, Next.js, Rails, Postgres, ActiveRecord, Git, Linux, Node

TECHNICAL PROJECTS:

Project Management App - [Github](#) | [Deployed App](#)

A 'Team todos' built with a crisp and intuitive user interface for easy collaboration.

- Built a Fullstack SPA with React Hooks, Redux, Thunk and an advanced model RESTful Rails back-end.
- Implemented features of login/auth, search, and responsiveness. Deployed (Heroku and Github Pages).

Chords and Beats - [Github](#) | [Deployed App](#)

A music/game app where chords can be combined and saved into a song with a few clicks.

- Developed a SPA with modular vanilla Javascript (OOP ES6).
- Built a Rails back-end using Fast JSON API serializer for RESTful endpoints. Deployed (Heroku and Github Pages).

Young Papas Hobbies - [Github](#) | [Deployed App](#)

A community for young fathers to share hobbies.

- Built a Fullstack app with Ruby on Rails. Developed features like authentication, validation and advanced RESTful/CRUD.

Satsang - [Github](#) | [Demo](#)

An app that connects people with interest in meditation.

- Implemented UI components (sidebars, cards, forms, filters).
- Debugged Fullstack features in React, TypeScript, Next.js, Prisma, Node, and Postgresql stack.

Task-Process Log - [Github](#) | [Demo](#)

A tool to keep track of a company's jobs and processes. Associates jobs and processes through tasks.

- Built a RESTful app using the MVC Sinatra Ruby framework. With multiple models and relational data.
- Implemented authentication and validation.

PROFESSIONAL EXPERIENCE

WALT DISNEY WORLD, *Customer Service*, Orlando, FL

06/19

to 03/20

- Directed and managed the commercial space (sales, register, general teller).
- Obtained 4+ years of experience in customer services while pursuing career growth and education, at Walt Disney World (15'-16'), ABM Industries(15'-16'), Universal Studios (09'-11').

INDAUX S.A. via DEUSTO BUSINESS SCHOOL, *Consultant*, Basque Country.

03/18 to 01/19
